

Teacher Guide to Communication (3 Lessons in total)

Lesson #1:

In these lessons, students will be introduced to the skill of communication. The beginning of the PowerPoint and Lesson #1 explains the skill and why it is important. Please use this as an opportunity to discuss this skill further with your students, answering any questions they may have. There is a guide provided to help understand the skills; it is labeled as *“Skills for Success Descriptions”*.

The first activity is introduced on Slide 4 and is labeled as *“Intro - Think about Oral Communication”*.

In this lesson, students will be asked to think about what they did yesterday and indicate whether they did each of the following, and how many times. The objective is for them to visualize and think about whether they are talking or listening more.

To end the lesson, you can introduce the 5 C’s of Communication, which are included in the PowerPoint on slides 7-8.

Lesson #2:

In this lesson, students will be able to deepen their understanding of the 10 communication skills and how they may apply to a career in Skilled Trades.

All details for this lesson are included in the document *“Teacher Guide/Lesson Plan – Top 10 Communication Skills.”*

Lesson #3:

In this lesson, students will be given the opportunity to practice the skill of Communication through participating in mock interviews.

All details for this lesson are included in the document *“Teacher Guide/Lesson Plan to Mock Interviews.”*
